

Wire and Cable Protection Solutions

Moltec is the proven leader in quality engineered solutions for wire and cable protection. Our custom engineering and high-quality products create the most durable and reliable cable protection solutions in the market. We offer a wide variety of flexible conduit for any application, and our wide range of fittings and connectors make installations simple. With all thread types and sizes, connectors and custom-made adapters we are able to engineer a solution for your application.

Benefits/Features

Connectors

- Available in 90°, 45°, straight, Y's, T's and backshells
- Available in Metric, NPT, PG, and UNEF thread
- Male, Female, custom swivels and adapters
- High quality cable glands
- Excellent impact strength
- Easy to install and tamper-proof
- High-grade formulated polyamide
- Available in IP66/NEMA4X to IP69K/NEMA6P
- Complete system available in 360° EMI shielding

Conduit

- Available in sizes 1/4in to 5in (3mm to 95mm)
- High grade Polyamide 6 and 12, Polypropylene and others
- Excellent UV resistance
- Highly Flexible for static and dynamic environments
- Wide temperature range
- Excellent mechanical strength and impact resistance
- Meets all smoke, flame and toxicity standards

Polyamide 6

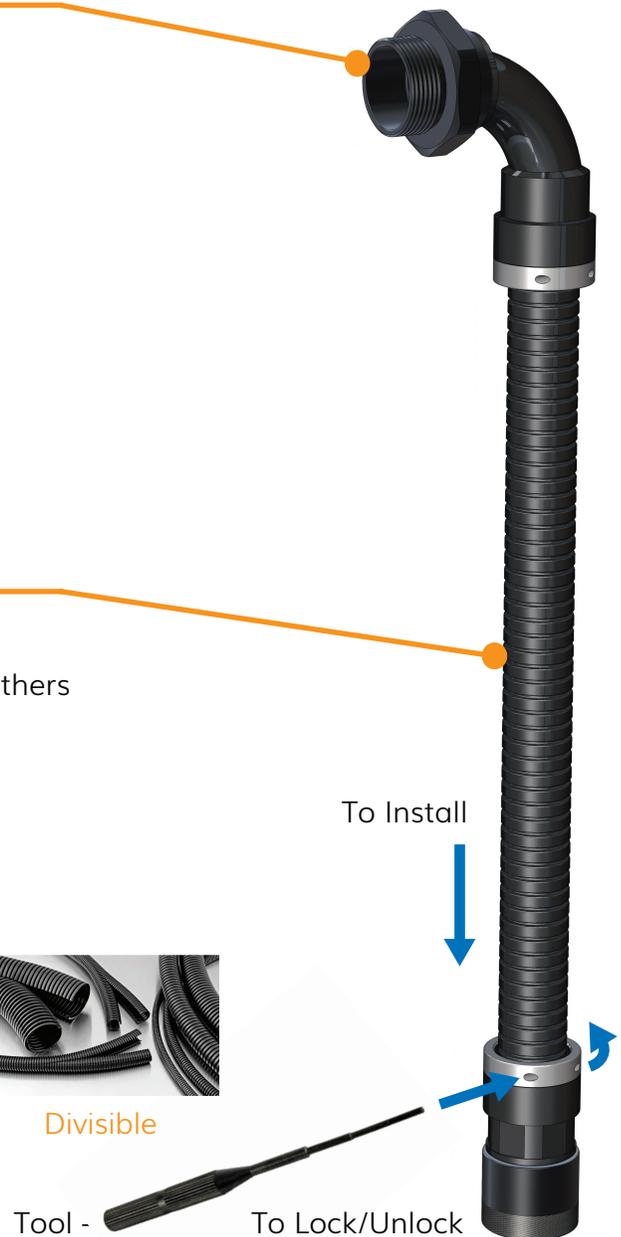

Polyamide 12

Hybrid

Divisible
